

NEW RIVER TEACHING ALLIANCE

School Direct with the NRTA

Train to become an outstanding Teacher in north London with the New River Teaching Alliance (NRTA) through our School Direct Programme in 2019-2020.

The NRTA is a Teaching Alliance led by Alexandra Park School, an outstanding secondary school with twin specialisms in Science and Maths. Amongst other things the NRTA is a longstanding and established teaching school and a preferred partner of the Institute of Education. The NRTA is an alliance of 9 secondary schools in North London including:

Alexandra Park School, Duke's Aldridge Academy, Friern Barnet School, Fortismere School, Greig City Academy, Highgate Wood School, Mill Hill County, Park View School, and Woodside High School.

We are committed to recruiting and training highly qualified graduates who are passionate about a career in teaching. Our aim is to ensure that through practical hands-on teaching experience in at least two NRTA schools, alongside academic study with our higher

education partners we will produce individuals who are outstanding teachers.

Why choose the NRTA?

The NRTA is made up of several highly successful comprehensive schools in north London. The key strategic partners in the Alliance are Alexandra Park School, Fortismere School and Woodside High School, all schools graded 'Outstanding' by Ofsted.

As the lead school, Alexandra Park has received national recognition for the quality of its provision. Working alongside top universities, we are playing a lead role in pioneering high quality teacher training, supported by a clear vision and a powerful ethos that believes every single student can achieve.

We can offer you:

- **Recognised PGCE qualification through local training** - Gained from direct, diverse learning at two successful comprehensive secondary schools in the NRTA area.
- **Accredited training** - With the nationally-renowned Institute of Education, retaining the academic rigour of postgraduate study with credits towards a Master's degree.
- **Hands-on experience** and reflective learning and working with outstanding colleagues in the classroom.
- **The knowledge, skills and behaviours** you need to become a successful practitioner - You will build up close working relationships with students and colleagues.
- **Excellent future employment opportunities** thanks to our membership of the NRTA; which comprises 9 secondary schools.

Our Partners

Schools:

Our group of nine schools work closely with each other to provide a broad and engaging experience over your two placements. It is important that the placements be varied, to aid with your training and readiness for employment. Ofsted ranks all our partner schools either as good or outstanding. They offer huge variation in size of cohorts, academic achievement as well as socio economic variety. They are all comprehensive schools.

University Partners

UCL IOE

We work in partnership with UCL Institute of Education. The Institute (IOE) has been providing first-class teacher training, in partnership with schools and colleges for over 100 years. Founded in 1902, as a teacher training college in London, the IOE is now a world-class research and teaching institution. IOE graduates are highly sought after in schools and colleges throughout London and the UK.

Its central location in historic Bloomsbury means that you are in the heart of London. The London Underground station at Russell Square is minutes from the main building and King's Cross, St Pancras and Euston stations are also close by.

Goldsmiths

We work in partnership with Goldsmiths, University of London. Goldsmith's has been educating teachers since 1904, and is renowned as a leader in the field of teacher education. The partnership you will be joining as you become a Goldsmiths student has a reputation for supporting the development of exceptional teachers for world class schools. This programme aims to develop all the skills, knowledge and understanding you'll need to become a responsible and effective secondary school teacher in your chosen subject.

Goldsmiths is a single site campus situated in New Cross, South East London, and five miles from central London.

Middlesex

For more than 130 years, Middlesex have been home to great minds with a determined and unwavering ambition to lead with great teaching and research. It hosts a diverse community of students, academics and partner organisations in London and around the world. It is proud of its a programme with a 96% employability rate and close links to hundreds of schools and early years settings across north London and the Home Counties.
